

Temperature measurement

TEMPERATURE TRANSMITTERS

Resistance element transmitters

TEMP-EL CNR (-50 to 800 °C)

- installed in junction box (DIN 43729 B)
- fixed ranges
- Pt100 sensing element
- no electrical isolation
- EEx ib IIC T6 construction

TEMP-EL BNR (-50 to 800 °C)

- installed on terminal board (AFTBI or AFTBI6)
- fixed ranges
- Pt100 sensing element
- no electrical isolation
- no Ex approval
- economical
